AUTHOR INDEX FOR VOLUME 25

A

Ahmad, B., Pless-Mulloli, T., Vizard, C.: HIA and pollution prevention control: What they can learn from each other, 714
Aldrich, R., ***see*** Simpson, S.
Almansa, P., ***see*** Canelas, L.
Alshuwaikhat, H.M.: Strategic environmental assessment can help solve environmental impact assessment failures in developing countries, 307
Althaus, H.-J., ***see*** Scharnhorst, W.
Armitage, D.R.: Collaborative environmental assessment in the Northwest Territories, Canada, 239
Atkinson, P., Cooke, A.: Developing a framework to assess costs and benefits of Health Impact Assessment, 791

B

Bader, H.-P., ***see*** Streicher-Porte, M.
Bailey, C., ***see*** Milner, S.J.
Bailey, J., ***see*** Wegner, A.
Barth, V., ***see*** Siebenhüner, B.
Bekker, M.P.M., Putters, K., van der Grinten, T.E.D.: Evaluating the impact of HIA on urban reconstruction decision-making. Who manages whose risk?, 758
Bendel, N., Owen-Smith, V.: A prospective health impact review of the redevelopment of Central Manchester Hospitals, 783
Binder, C., ***see*** Wiek, A.
Birley, M.: Health impact assessment in multinationals: A case study of the Royal Dutch/Shell Group, 702
Björklund, A., ***see*** Nilsson, M.
Böni, H., ***see*** Widmer, R.
Braniš, M., Christopoulos, S.: Mandated monitoring of post-project impacts in the Czech EIA, 227

C

Canelas, L., Almansa, P., Merchan, M., Cifuentes, P.: Quality of environmental impact statements in Portugal and Spain, 217
Cherp, A., ***see*** Demidova, O.
Christopoulos, S., ***see*** Braniš, M.
Cifuentes, P., ***see*** Canelas, L.
Classen, M., ***see*** Scharnhorst, W.
Connelly, S., Richardson, T.: Value-driven SEA: time for an environmental justice perspective?, 391
Cooke, A., ***see*** Atkinson, P.

D

Deans, J., ***see*** Milner, S.J.
Demidova, O., Cherp, A.: Risk assessment for improved treatment of health considerations in EIA, 411
Dietmar, R., ***see*** Hicks, C.
Doberstein, B.: Community-driven regulation: balancing development and the environment in Vietnam, 95
Dos Santos Lucon, O., Moutinho dos Santos, E.: The HORUS model—inventory of atmospheric pollutant emissions from industrial combustion in Sao Paulo, Brazil, 197
Douglas, M., ***see*** Higgins, M.

E

Elliott, E., Francis, S.: Making effective links to decision-making: Key challenges for health impact assessment, 747
Eugster, M., ***see*** Hicks, C.
Eugster, M., ***see*** Wäger, P.A.

F

Finnveden, G., ***see*** Nilsson, M.
Francis, S., ***see*** Elliott, E.

G

Gauglhofer, J., ***see*** Hischier, R.
Gibson, R.B., ***see*** Hunsberger, C.A.

H

Harris, E., ***see*** Simpson, S.
Hartley, N., Wood, C.: Public participation in environmental impact assessment—implementing the Aarhus Convention, 319
Hicks, C., Dietmar, R., Eugster, M.: The recycling and disposal of electrical and electronic waste in China—legislative and market responses, 459
Higgins, M., Douglas, M., Muirie, J.: Can health feasibly be considered as part of the planning process in Scotland?, 723
Hilty, L.M., ***see*** Scharnhorst, W.
Hilty, L.M., ***see*** Wäger, P.A.
Hilty, L.M.: Electronic waste—an emerging risk?, 431
Hischier, R., Wäger, P., Gauglhofer, J.: Does WEEE recycling make sense from an environmental perspective? The environmental impacts of the Swiss take-back and recycling systems for waste electrical and electronic equipment (WEEE), 525
Hsiao, T.-Y., ***see*** Kuo, N.-W.
Hunsberger, C.A., Gibson, R.B., Wismer, S.K.: Citizen involvement in sustainability-centred environmental assessment follow-up, 609

J

Jain, A., ***see*** Streicher-Porte, M.
Johansson, J., ***see*** Nilsson, M.
Jolliet, O., ***see*** Scharnhorst, W.

K

Keen, M., Sullivan, M.: Aiding the environment: the Australian Development Agency's experience of implementing an environmental management system, 628
Kemm, J.: HIA — Growth and prospects, 691
Kemm, J.: The future challenges for HIA, 799
Kraeuchi, P., ***see*** Sinha-Khetriwal, D.
Kuo, N.-W., Hsiao, T.-Y., Yu, Y.-H.: A Delphi–matrix approach to SEA and its application within the tourism sector in Taiwan, 259
Kytzia, S., ***see*** Streicher-Porte, M.

L

Lewis, K.A., ***see*** Tzilivakis, J.

M

Mahoney, M., ***see*** Simpson, S.
Marttunen, M., ***see*** Väntänen, A.
McCaig, K.: Canadian insights: The challenges of an integrated environmental assessment framework, 737
Merchan, M., ***see*** Canelas, L.
Milner, S.J., Bailey, C., Deans, J., Pettigrew, D.: Integrated impact assessment in the UK—use, efficacy and future development, 47
Mingshun, Z., ***see*** van Dijk, M.P.
Momtaz, S.: Institutionalizing social impact assessment in Bangladesh resource management: limitations and opportunities, 33
Moore, S.A., ***see*** Wegner, A.
Moto, D.D., ***see*** Utzinger, J.
Moutinho dos Santos, E., ***see*** dos Santos Lucon, O.
Muirie, J., ***see*** Higgins, M.
Muro, E., ***see*** Vanderhaegen, M.

N

Nilsson, M., Björklund, A., Finnveden, G., Johansson, J.: Testing a SEA methodology for the energy sector: a waste incineration tax proposal, 1
Noble, B., Storey, K.: Towards increasing the utility of follow-up in Canadian EIA, 163

O

Oswald-Krapf, H., ***see*** Widmer, R.
Owen-Smith, V., ***see*** Bendel, N.

P

Pettigrew, D., ***see*** Milner, S.J.
Pless-Mulloli, T., ***see*** Ahmad, B.
Putters, K.: HIA, the next step: Defining models and roles, 693
Putters, K., ***see*** Bekker, M.P.M.

R

Rauschmayer, F., Risse, N.: A framework for the selection of participatory approaches for SEA, 650
Richardson, T., ***see*** Connelly, S.
Richardson, T.: Environmental assessment and planning theory: four short stories about power, multiple rationality, and ethics, 341
Risse, N., ***see*** Rauschmayer, F.

S

Scharnhorst, W., Althaus, H.-J., Classen, M., Jolliet, O., Hilty, L.M.: The end of life treatment of second generation mobile phone networks: Strategies to reduce the environmental impact, 540
Scheidegger, R., ***see*** Streicher-Porte, M.

Schmidt, M.: A production-theory-based framework for analysing recycling systems in the e-waste sector, 505
Schnellmann, M., ***see*** Widmer, R.
Schwaninger, M., ***see*** Sinha-Khetriwal, D.
Siebenhüner, B., Barth, V.: The role of computer modelling in participatory integrated assessments, 367
Simpson, S., Mahoney, M., Harris, E., Aldrich, R., Stewart-Williams, J.: Equity-focused health impact assessment: A tool to assist policy makers in addressing health inequalities, 772
Singer, B.H., ***see*** Utzinger, J.
Sinha-Khetriwal, D., Kraeuchi, P., Schwaninger, M.: A comparison of electronic waste recycling in Switzerland and in India, 492
Sinha-Khetriwal, D., ***see*** Widmer, R.
Som, C., ***see*** Wäger, P.A.
Stewart-Williams, J., ***see*** Simpson, S.
Storey, K., ***see*** Noble, B.
Streicher-Porte, M., Widmer, R., Jain, A., Bader, H.-P., Scheidegger, R., Kytzia, S.: Key drivers of the e-waste recycling system: Assessing and modelling e-waste processing in the informal sector in Delhi, 472
Sullivan, M., ***see*** Keen, M.

T

Tanner, M., ***see*** Utzinger, J.
Tzilivakis, J., Lewis, K.A., Williamson, A.R.: A prototype framework for assessing risks to soil functions, 181

U

Utzinger, J., Wyss, K., Moto, D.D., Yémadji, N., Tanner, M., Singer, B.H.: Assessing health impacts of the Chad–Cameroon petroleum development and pipeline project: challenges and a way forward, 63

V

Van der Grinten, T.E.D., ***see*** Bekker, M.P.M.
Van Dijk, M.P., Mingshun, Z.: Sustainability indices as a tool for urban managers, evidence from four medium-sized Chinese cities, 667
Vanderhaegen, M., Muro, E.: Contribution of a European spatial data infrastructure to the effectiveness of EIA and SEA studies, 123
Väntänen, A., Marttunen, M.: Public involvement in multi-objective water level regulation development projects—evaluating the applicability of public involvement methods, 281
Vizard, C., ***see*** Ahmad, B.

W

Wäger, P., ***see*** Hischier, R.
Wäger, P.A., Eugster, M., Hilty, L.M., Som, C.: Smart labels in municipal solid waste — a case for the Precautionary Principle?, 567
Wegner, A., Moore, S.A., Bailey, J.: Consideration of biodiversity in environmental impact assessment in Western Australia: practitioner perceptions, 143
Widmer, R., Oswald-Krapf, H., Sinha-Khetriwal, D., Schnellmann, M., Böni, H.: Global perspectives on e-waste, 436
Widmer, R., ***see*** Streicher-Porte, M.
Wiek, A., Binder, C.: Solution spaces for decision-making—a sustainability assessment tool for city-regions, 589
Williamson, A.R., ***see*** Tzilivakis, J.
Wismer, S.K., ***see*** Hunsberger, C.A.
Wood, C., ***see*** Hartley, N.
Wyss, K., ***see*** Utzinger, J.

Y

Yémadji, N., ***see*** Utzinger, J.

Environmental Impact Assessment Review 25 (2005) 811–821
Environmental Impact Assessment Review
www.elsevier.com/locate/eiar

SUBJECT INDEX FOR VOLUME 25

A

Aarhus Convention
Public participation in environmental impact assessment—implementing the Aarhus Convention, 319

B

Biodiversity
Consideration of biodiversity in environmental impact assessment in Western Australia: practitioner perceptions, 143

C

Cameroon
Assessing health impacts of the Chad–Cameroon petroleum development and pipeline project: challenges and a way forward, 63

Canada
Collaborative environmental assessment in the Northwest Territories, Canada, 239

Chad
Assessing health impacts of the Chad–Cameroon petroleum development and pipeline project: challenges and a way forward, 63

China
The recycling and disposal of electrical and electronic waste in China—legislative and market responses, 459

Chinese cities
Sustainability indices as a tool for urban managers, evidence from four medium-sized Chinese cities, 667

Citizen participation
Citizen involvement in sustainability-centred environmental assessment follow-up, 609

Citizen-based monitoring
Citizen involvement in sustainability-centred environmental assessment follow-up, 609

City-regions
Solution spaces for decision-making—a sustainability assessment tool for city-regions, 589

Collaboration
Collaborative environmental assessment in the Northwest Territories, Canada, 239

Collaborative management
Collaborative environmental assessment in the Northwest Territories, Canada, 239

Community participation
Institutionalizing social impact assessment in Bangladesh resource management: limitations and opportunities, 33

Computer models
The role of computer modelling in participatory integrated assessments, 367

0195-9255/$ - see front matter © 2005 Elsevier Inc. All rights reserved.
doi:10.1016/S0195-9255(05)00112-5

Cost
Developing a framework to assess costs and benefits of Health Impact Assessment, 791
Countries in economic transition
Key drivers of the e-waste recycling system: Assessing and modelling e-waste processing in the informal sector in Delhi, 472

D

Decision-making
Making effective links to decision-making: Key challenges for health impact assessment, 747
Decision-making
Evaluating the impact of HIA on urban reconstruction decision-making. Who manages whose risks?, 758
Decision making
The future challenges for HIA, 799
Decision support tool
Solution spaces for decision-making—a sustainability assessment tool for city-regions, 589
Definitions
Consideration of biodiversity in environmental impact assessment in Western Australia: practitioner perceptions, 143
Delphi method
A Delphi–matrix approach to SEA and its application within the tourism sector in Taiwan, 259
Demographic surveillance system (DSS)
Assessing health impacts of the Chad–Cameroon petroleum development and pipeline project: challenges and a way forward, 63
Department of Environment
Institutionalizing social impact assessment in Bangladesh resource management: limitations and opportunities, 33
Developing countries
Strategic environmental assessment can help solve environmental impact assessment failures in developing countries, 307
Developing countries
Key drivers of the e-waste recycling system: Assessing and modelling e-waste processing in the informal sector in Delhi, 472
Development
Can health feasibly be considered as part of the planning process in Scotland?, 723

E

EA follow-up
Towards increasing the utility of follow-up in Canadian EIA, 163
Effectiveness
Testing a SEA methodology for the energy sector: a waste incineration tax proposal, 1
EIA
Contribution of a European spatial data infrastructure to the effectiveness of EIA and SEA studies, 123
EIS review
Risk assessment for improved treatment of health considerations in EIA, 411
End of life scenarios
The end of life treatment of second generation mobile phone networks: Strategies to reduce the environmental impact, 540
Energy
Testing a SEA methodology for the energy sector: a waste incineration tax proposal, 1
Energy and environmental planning
The HORUS model—inventory of atmospheric pollutant emissions from industrial combustion in Sao Paulo, Brazil, 197

Environmental aid
Aiding the environment: the Australian Development Agency's experience of implementing an environmental management system, 628
Environmental assessment and protection
A prototype framework for assessing risks to soil functions, 181
Environmental assessment follow-up
Citizen involvement in sustainability-centred environmental assessment follow-up, 609
Environmental goods
Value-driven SEA: time for an environmental justice perspective?, 391
Environmental governance
Aiding the environment: the Australian Development Agency's experience of implementing an environmental management system, 628
Environmental health impacts
Risk assessment for improved treatment of health considerations in EIA, 411
Environmental impact assessment
Institutionalizing social impact assessment in Bangladesh resource management: limitations and opportunities, 33
Environmental impact assessment
Contribution of a European spatial data infrastructure to the effectiveness of EIA and SEA studies, 123
Environmental impact assessment
Mandated monitoring of post-project impacts in the Czech EIA, 227
Environmental impact assessment
Collaborative environmental assessment in the Northwest Territories, Canada, 239
Environmental impact assessment
Public participation in environmental impact assessment—implementing the Aarhus Convention, 319
Environmental impact assessment
Environmental assessment and planning theory: four short stories about power, multiple rationality, and ethics, 341
Environmental impact assessment
Canadian insights: The challenges of an integrated environmental assessment framework, 737
Environmental Impact Assessment
Risk assessment for improved treatment of health considerations in EIA, 411
Environmental impact assessment (EIA)
Assessing health impacts of the Chad–Cameroon petroleum development and pipeline project: challenges and a way forward, 63
Environmental impact assessment (EIA)
Aiding the environment: the Australian Development Agency's experience of implementing an environmental management system, 628
Environmental Impact Statement (EIS)
Quality of environmental impact statements in Portugal and Spain, 217
Environmental impacts
Does WEEE recycling make sense from an environmental perspective?: The environmental impacts of the Swiss take-back and recycling systems for waste electrical and electronic equipment (WEEE), 525
Environmental justice
Value-driven SEA: time for an environmental justice perspective?, 391
Environmental management systems (EMS)
Aiding the environment: the Australian Development Agency's experience of implementing an environmental management system, 628

Environmental Protection Authority
Consideration of biodiversity in environmental impact assessment in Western Australia: practitioner perceptions, 143
Equity
Equity-focused health impact assessment: A tool to assist policy makers in addressing health inequalities, 772
Equity
The future challenges for HIA, 799
Ethics
Environmental assessment and planning theory: four short stories about power, multiple rationality, and ethics, 341
European Union
Quality of environmental impact statements in Portugal and Spain, 217
Evaluation
Evaluating the impact of HIA on urban reconstruction decision-making. Who manages whose risks?, 758
Evaluation
The future challenges for HIA, 799
E-waste
The recycling and disposal of electrical and electronic waste in China—legislative and market responses, 459
E-waste
A comparison of electronic waste recycling in Switzerland and in India, 492
E-waste assessment methodology
Global perspectives on e-waste, 436
E-waste initiatives
Global perspectives on e-waste, 436
E-waste management
A production-theory-based framework for analysing recycling systems in the e-waste sector, 505
E-waste recycling
Key drivers of the e-waste recycling system: Assessing and modelling e-waste processing in the informal sector in Delhi, 472
Extended impact assessment
Contribution of a European spatial data infrastructure to the effectiveness of EIA and SEA studies, 123
Extended producer responsibility
Global perspectives on e-waste, 436

F

Framework
A framework for the selection of participatory approaches for SEA, 650
Fuel combustion emissions inventory
The HORUS model—inventory of atmospheric pollutant emissions from industrial combustion in Sao Paulo, Brazil, 197

G

Geographic information
Contribution of a European spatial data infrastructure to the effectiveness of EIA and SEA studies, 123
GIS
Contribution of a European spatial data infrastructure to the effectiveness of EIA and SEA studies, 123

H

Hazardous waste management
A comparison of electronic waste recycling in Switzerland and in India, 492
Health Impact Assessment
Developing a framework to assess costs and benefits of Health Impact Assessment, 791

Health impact assessment
Integrated impact assessment in the UK—use, efficacy and future development, 47
Health impact assessment
HIA, the next step: Defining models and roles, 693
Health impact assessment
Can health feasibly be considered as part of the planning process in Scotland?, 723
Health impact assessment
Canadian insights: The challenges of an integrated environmental assessment framework, 737
Health impact assessment
Making effective links to decision-making: Key challenges for health impact assessment, 747
Health impact assessment
Evaluating the impact of HIA on urban reconstruction decision-making. Who manages whose risks?, 758
Health impact assessment
Equity-focused health impact assessment: A tool to assist policy makers in addressing health inequalities, 772
Health impact assessment
The future challenges for HIA, 799
Health impact assessment (HIA)
Assessing health impacts of the Chad–Cameroon petroleum development and pipeline project: challenges and a way forward, 63
Health Impact Assessment (HIA)
HIA and pollution prevention control: What they can learn from each other, 714
Health Impact Review
A prospective health impact review of the redevelopment of Central Manchester Hospitals, 783
Health systems development
Assessing health impacts of the Chad–Cameroon petroleum development and pipeline project: challenges and a way forward, 63
Healthy Living Centre
Developing a framework to assess costs and benefits of Health Impact Assessment, 791
Hospitals
A prospective health impact review of the redevelopment of Central Manchester Hospitals, 783

I

Impact mitigation
Towards increasing the utility of follow-up in Canadian EIA, 163
Impact monitoring
Mandated monitoring of post-project impacts in the Czech EIA, 227
Industrial air pollution
The HORUS model—inventory of atmospheric pollutant emissions from industrial combustion in Sao Paulo, Brazil, 197
Inequalities
A prospective health impact review of the redevelopment of Central Manchester Hospitals, 783
Informal sector
Global perspectives on e-waste, 436
Informal sector
The recycling and disposal of electrical and electronic waste in China—legislative and market responses, 459
Informal sector
Key drivers of the e-waste recycling system: Assessing and modelling e-waste processing in the informal sector in Delhi, 472

INSPIRE
Contribution of a European spatial data infrastructure to the effectiveness of EIA and SEA studies, 123
Integrated approaches
Citizen involvement in sustainability-centred environmental assessment follow-up, 609
Integrated environmental assessment
Canadian insights: The challenges of an integrated environmental assessment framework, 737
Integrated impact assessment
Integrated impact assessment in the UK—use, efficacy and future development, 47
Interactive planning
Public involvement in multi-objective water level regulation development projects—evaluating the applicability of public involvement methods, 281
International exhibition
A Delphi–matrix approach to SEA and its application within the tourism sector in Taiwan, 259

L

LCA
Testing a SEA methodology for the energy sector: a waste incineration tax proposal, 1
LCA
A production-theory-based framework for analysing recycling systems in the e-waste sector, 505
LCA
Does WEEE recycling make sense from an environmental perspective?: The environmental impacts of the Swiss take-back and recycling systems for waste electrical and electronic equipment (WEEE), 525
LCA
The end of life treatment of second generation mobile phone networks: Strategies to reduce the environmental impact, 540
Learning
Collaborative environmental assessment in the Northwest Territories, Canada, 239
Life cycle assessment
Testing a SEA methodology for the energy sector: a waste incineration tax proposal, 1
Life cycle assessment
Does WEEE recycling make sense from an environmental perspective?: The environmental impacts of the Swiss take-back and recycling systems for waste electrical and electronic equipment (WEEE), 525
Local knowledge
Citizen involvement in sustainability-centred environmental assessment follow-up, 609

M

Mainstreaming
Making effective links to decision-making: Key challenges for health impact assessment, 747
Management
Towards increasing the utility of follow-up in Canadian EIA, 163
Material flow analysis
Key drivers of the e-waste recycling system: Assessing and modelling e-waste processing in the informal sector in Delhi, 472
Material flow analysis
Does WEEE recycling make sense from an environmental perspective?: The environmental impacts of the Swiss take-back and recycling systems for waste electrical and electronic equipment (WEEE), 525

Material flow management
A production-theory-based framework for analysing recycling systems in the e-waste sector, 505
Material flow nets
A production-theory-based framework for analysing recycling systems in the e-waste sector, 505
MFA
A production-theory-based framework for analysing recycling systems in the e-waste sector, 505
MFA
Does WEEE recycling make sense from an environmental perspective?: The environmental impacts of the Swiss take-back and recycling systems for waste electrical and electronic equipment (WEEE), 525
Mobile phone network
The end of life treatment of second generation mobile phone networks: Strategies to reduce the environmental impact, 540
Models
HIA, the next step: Defining models and roles, 693
Monitoring and evaluation
Assessing health impacts of the Chad–Cameroon petroleum development and pipeline project: challenges and a way forward, 63

P

Participation
A framework for the selection of participatory approaches for SEA, 650
Participation
The future challenges for HIA, 799
Participatory integrated assessment
The role of computer modelling in participatory integrated assessments, 367
Perceptions
Consideration of biodiversity in environmental impact assessment in Western Australia: practitioner perceptions, 143
Personal computer
Key drivers of the e-waste recycling system: Assessing and modelling e-waste processing in the informal sector in Delhi, 472
Petroleum development and pipeline project
Assessing health impacts of the Chad–Cameroon petroleum development and pipeline project: challenges and a way forward, 63
Planning
Can health feasibly be considered as part of the planning process in Scotland?, 723
Planning theory
Environmental assessment and planning theory: four short stories about power, multiple rationality, and ethics, 341
Policy
HIA, the next step: Defining models and roles, 693
Policy appraisal
Integrated impact assessment in the UK—use, efficacy and future development, 47
Pollution Prevention and Control (PPC)
HIA and pollution prevention control: What they can learn from each other, 714
Post-auditing
Mandated monitoring of post-project impacts in the Czech EIA, 227
Post-development auditing
Mandated monitoring of post-project impacts in the Czech EIA, 227

Post-project monitoring
Mandated monitoring of post-project impacts in the Czech EIA, 227
Power
Environmental assessment and planning theory: four short stories about power, multiple rationality, and ethics, 341
Practice evaluation criteria
Public participation in environmental impact assessment—implementing the Aarhus Convention, 319
Precautionary Principle
Smart labels in municipal solid waste — a case for the Precautionary Principle?, 567
Prediction
The future challenges for HIA, 799
Predictive accuracy
Towards increasing the utility of follow-up in Canadian EIA, 163
Production theory
A production-theory-based framework for analysing recycling systems in the e-waste sector, 505
Project cycle
Aiding the environment: the Australian Development Agency's experience of implementing an environmental management system, 628
Public involvement
Public involvement in multi-objective water level regulation development projects—evaluating the applicability of public involvement methods, 281
Public participation
Public participation in environmental impact assessment—implementing the Aarhus Convention, 319

Q

Quality
Quality of environmental impact statements in Portugal and Spain, 217

R

Rationality
Environmental assessment and planning theory: four short stories about power, multiple rationality, and ethics, 341
Recycling
The recycling and disposal of electrical and electronic waste in China—legislative and market responses, 459
Recycling
A comparison of electronic waste recycling in Switzerland and in India, 492
Recycling
Smart labels in municipal solid waste — a case for the Precautionary Principle?, 567
Recycling benefit
The end of life treatment of second generation mobile phone networks: Strategies to reduce the environmental impact, 540
RFID transponders
Smart labels in municipal solid waste — a case for the Precautionary Principle?, 567
Risk Assessment
Risk assessment for improved treatment of health considerations in EIA, 411
Risk assessment
Testing a SEA methodology for the energy sector: a waste incineration tax proposal, 1

Risk assessment
A prototype framework for assessing risks to soil functions, 181
Risk assessment
Smart labels in municipal solid waste — a case for the Precautionary Principle?, 567

S

SDI
Contribution of a European spatial data infrastructure to the effectiveness of EIA and SEA studies, 123
Scrutiny
A prospective health impact review of the redevelopment of Central Manchester Hospitals, 783
SEA
Testing a SEA methodology for the energy sector: a waste incineration tax proposal, 1
SEA
Contribution of a European spatial data infrastructure to the effectiveness of EIA and SEA studies, 123
SEA
Value-driven SEA: time for an environmental justice perspective?, 391
Smart labels
Smart labels in municipal solid waste — a case for the Precautionary Principle?, 567
Social assessment
Institutionalizing social impact assessment in Bangladesh resource management: limitations and opportunities, 33
Social impact assessment
Institutionalizing social impact assessment in Bangladesh resource management: limitations and opportunities, 33
Social impact assessment
Public involvement in multi-objective water level regulation development projects—evaluating the applicability of public involvement methods, 281
Soils
A prototype framework for assessing risks to soil functions, 181
Spatial analysis
Contribution of a European spatial data infrastructure to the effectiveness of EIA and SEA studies, 123
Spatial data
Contribution of a European spatial data infrastructure to the effectiveness of EIA and SEA studies, 123
Spatial data infrastructure
Contribution of a European spatial data infrastructure to the effectiveness of EIA and SEA studies, 123
Stakeholders
Consideration of biodiversity in environmental impact assessment in Western Australia: practitioner perceptions, 143
Strategic behaviour
Evaluating the impact of HIA on urban reconstruction decision-making. Who manages whose risks?, 758
Strategic Environmental Assessment
Testing a SEA methodology for the energy sector: a waste incineration tax proposal, 1
Strategic environmental assessment
Contribution of a European spatial data infrastructure to the effectiveness of EIA and SEA studies, 123
Strategic environmental assessment
Strategic environmental assessment can help solve environmental impact assessment failures in developing countries, 307

Strategic environmental assessment
Environmental assessment and planning theory: four short stories about power, multiple rationality, and ethics, 341
Strategic environmental assessment
A framework for the selection of participatory approaches for SEA, 650
Strategic environmental assessment
Can health feasibly be considered as part of the planning process in Scotland?, 723
Strategic Environmental Assessment (SEA)
A Delphi–matrix approach to SEA and its application within the tourism sector in Taiwan, 259
Sub-Saharan Africa
Assessing health impacts of the Chad–Cameroon petroleum development and pipeline project: challenges and a way forward, 63
Sustainability
Integrated impact assessment in the UK—use, efficacy and future development, 47
Sustainability
Collaborative environmental assessment in the Northwest Territories, Canada, 239
Sustainability assessment
Solution spaces for decision-making—a sustainability assessment tool for city-regions, 589
Sustainability indicators
Solution spaces for decision-making—a sustainability assessment tool for city-regions, 589
Sustainability indices
Sustainability indices as a tool for urban managers, evidence from four medium-sized Chinese cities, 667
Sustainability science
The role of computer modelling in participatory integrated assessments, 367
Sustainable development
Contribution of a European spatial data infrastructure to the effectiveness of EIA and SEA studies, 123
Sustainable development
Strategic environmental assessment can help solve environmental impact assessment failures in developing countries, 307
Sustainable development
Smart labels in municipal solid waste — a case for the Precautionary Principle?, 567

T

Target conflicts
Solution spaces for decision-making—a sustainability assessment tool for city-regions, 589
Tourism activities
A Delphi–matrix approach to SEA and its application within the tourism sector in Taiwan, 259
Transboundary e-waste movement
Global perspectives on e-waste, 436
Transdisciplinarity
Solution spaces for decision-making—a sustainability assessment tool for city-regions, 589

U

Upgrading and refurbishing
Key drivers of the e-waste recycling system: Assessing and modelling e-waste processing in the informal sector in Delhi, 472
Urban managers
Sustainability indices as a tool for urban managers, evidence from four medium-sized Chinese cities, 667

V

Value
Environmental assessment and planning theory: four short stories about power, multiple rationality, and ethics, 341

Value correction factor
The end of life treatment of second generation mobile phone networks: Strategies to reduce the environmental impact, 540

W

Wales
Making effective links to decision-making: Key challenges for health impact assessment, 747

Waste
Testing a SEA methodology for the energy sector: a waste incineration tax proposal, 1

Waste incinerators
